

Request to Permit Undergraduate Student to Conduct Research during Phase II of Research Reopen at UNT

During Phase II of research reopen, undergraduate research is not occurring. Phase III is when undergraduate research will be permitted. Phase III is entered when a testing and tracing plan is in place which is expected soon. However, if a faculty member wants to request an *exception* to allow undergraduate research during Phase II, this form must be used to justify the request.

- The faculty mentor should submit this form.
- During phase II of Research Reopen send the completed form and any additional documents to katie.herring@unt.edu.
- Refer to <https://research.unt.edu/unt-research-reopen-plan> for additional information

Faculty Name: _____ Title: _____
