

AI Innovations Challenge

The AI Innovations Challenge is designed as a mini accelerator program to foster innovation and practical applications of AI in the life sciences, biotech, and healthcare sectors.

The competition encourages interdisciplinary collaboration, offering stages from initial proposal submission to final project development, with mentoring and support for commercialization.

Timeline Highlights:

Registration:

Starts: April 18, 2024

End: May 15, 2024

Challenge:

Starts: July 1, 2024

End: August 30, 2024

Questions?

Email: Susheel Kumar, PhD at

susheel.kumar@utsouthwestern.edu

Who Can Participate:

Open to all UT Southwestern Medical Center (UTSW) students and trainees, including postdoctoral researchers, research assistants, clinical fellows, and interns. Non-UTSW members are welcome with at least one UTSW team member.

Challenge Structure:

Registration: Submit your innovative AI project ideas.

Development & Mentorship: Selected teams develop their projects with guidance from experts over a two-month period.

Final Presentation: Present your solution to a panel of industry and academic experts.

Why Participate:

Showcase Your Innovation: Bring your ideas to life and make an impact in the field of biotechnology.

Networking Opportunities: Connect with industry leaders and academic experts.

Gain Experience: Learn about the commercialization of technology and develop valuable skills.
